

Snow Mold Assurance Program

Proven Performance Underpinned by TURFCIDE® – Sleep at night!

The AMVAC Snow Mold Assurance Program takes the uncertainty out of snow mold protection. Instead of trying to predict weather conditions, superintendents now have a stress-free way of controlling pink and gray snow mold on greens, tees and fairways. The AMVAC program provides everything you need for Opening Day 2018, to ensure your course opens with unsurpassed playability.

| AMVAC Preventive Snow Mold Recommendations TURFCIDE Alone | | |
|---|----------------------|--|
| Greens | 120+ days of control | TURFCIDE 6 – 8* fl. oz. per 1,000 sq. ft. ** |
| Fairways | 120 days of control | TURFCIDE 12 – 16 fl. oz. per 1,000 sq. ft. * |

*Applications may be split **Two Applications, 2 - 6 weeks part

| AMVAC Preventive Snow Mold Recommendations TURFCIDE Tank Mixed | | |
|--|----------------------|--|
| Greens | 120+ days of control | TURFCIDE 6 – 8 * fl. oz. + _____ fl. oz. per 1,000 sq. ft. |

Key Agronomic Practices:

- Give your snow mold application an advantage by utilizing a fall cleanup application to control cool season disease
- Summer stresses, such as plant diseases, take a toll on turf grass health. Give your turf grass the best chance for recovery with best timed clean up sprays and snow mold applications
- Apply snow mold applications prior to snowfall as a single or a split application
- Additional applications may be necessary in absence of permanent snow cover

TURFCIDE 400 Purchase Incentive Rebate:

Purchase 50 gallons on a single invoice and receive \$175 rebate. Maximum rebate is \$875 payable to the Golf Course Facility. 50 gallons treats 9 to 12.25 acres at 12 -16 oz. per 1,000 sq. ft. respectively.

OR

TURFCIDE 10G Purchase Incentive Rebate:

Purchase 1,500 pounds and receive \$175 rebate. Maximum rebate is \$875 payable to the Golf Course Facility. 1,500 lbs. treats 15,000 to 30,000 sq. ft. at 5 lb. – 10 lb. per 1000 sq. ft.

Proud Supporters of

AMVAC Snow Mold Assurance Program Terms and Conditions

User must follow prescribed guidelines herein regarding application rates and timing for the user's region and apply on a minimum of 3 acres of greens or 20 acres of fairways in order to qualify for the AMVAC Snow Mold Assurance Program. Program purchases must be made between September 8, 2017 and November 21, 2017 and product applications must be made between September 8, 2017 (High elevation areas) and December 15, 2017 ("Qualifying Period"). All claims must be reported to and submitted in writing to AMVAC territory manager within two (2) weeks after snowmelt and no later than April 15, 2018. In the event you notify your AMVAC territory manager of snow mold breakthrough exceeding 15%, your AMVAC territory manager will investigate and, if warranted, supply AMVAC products for application replacement with a value not to exceed the value of the AMVAC products already purchased and applied by user on the applicable acreage during the Qualifying Period. A "Breakthrough" is defined as more than 15% occurrence of snow mold control as compared to untreated areas of similar turf density, turf type, and environment at the discretion of the AMVAC territory manager. AMVAC's determination as to whether less than acceptable control exists will be final. AMVAC retains the right to audit purchase records in assessing claims made pursuant to the Program. AMVAC will not pay for any application for rescue treatments. Cultural practices, mechanical issues or any other factors that are deemed contrary to standard practices and methods for preventive snow mold control will render the claim ineligible. AMVAC reserves the right to modify or discontinue this Program at any time without prior notice.
